AMICUS Fundacja Łuszczycy i ŁZS	ul. Otrębuska 5, Warszawa, - 01-475, PL	Patient Organization Agreement/Grant	Project PSOs Psoriasis	<p>The reportages with stories of the patients who received a successful biological treatment. Thanks to the treatment, they are now able to enjoy any type of activities. The one of the stories shown, will be a female patient, who went through the following treatment stages:</p> <ul style="list-style-type: none"> - Qualification to the treatment, after the first administration of the medicinal product and after the symptoms disappearance. We will speak to her about her emotions and problems she had, while she was struggling with the disease. The reportages will include patients stories, doctors views and psychological side provided by the psychologist. Doctors will talk about the path to the effective therapy using as examples patients' stories featured in the reportages. The psychologist will talk about the psychological barriers and the best ways to deal with them. Our goal is to show, that despite the difficulties, the patients are able to find the therapeutic centre with the access to the effective therapy and there is a chance to regain the control over their own lives. 	23000 PLN
